Work around the clock
in comfort

Reality™

Reality™

Reality™ Series 24/7 Series fully adjustable seating built tough for multi shift usage.

Applications: Intensive Use as in Call Centers, Emergency Dispatch, Police Offices Data Entry. Every component is built to last from bottom to top. All Reality™ chairs are weight rated to 350 lbs, while model 9375JH is rated at 500 lbs. Reality™ also incorporates comfort features like a sliding seat pan, adjustable back height, forward tilt, seat & back angle adjustability and so much more.

All Reality chairs are Greenguard certified for indoor air quality.

Our Green is Good program demonstrates our commitment to designing chairs that utilize components which are manufactured predominately from recyclable materials. We back up our commitment by disclosing the percentage and composition of both recyclable and non-recyclable materials, which are detailed on our Green is Good™ product sheets and hang tags.

ALL Reality Seating is available as Quick Ship
